RESEARCH EXPERIENCE

Research Assistant

2017-2020	Personality, Evolution, Attraction Research Laboratory (PEARL) Dr. Michael D. Botwin, Director. Department of Psychology, California State University, Fresno.
-----------	---

Recent projects:

Acts of Flirting: We developed a taxonomy of prototypical flirting behaviors that may attract a mate. Collected effectiveness ratings for the flirting acts.

Sex Differences in Jealousy on Snapchat: We created two images of Snapchat notifications. One was an image the other a message. We then presented participants with a vignette that alluded to infidelity and had them choose which notification would make them more jealous.

Honors Thesis: *Celebrity crushes as romantic infatuation:*

When you love one you can't be with.

This study found a relationship between participant attitudes about celebrities, their personality, and romantic infatuation. Relationships between attitudes about celebrities, obsessive compulsive loss and social desirability were also examined.

2019-2021

Psychophysiology and Behavioral Economics Lab

Dr. Martin Shapiro, Director.

Department of Psychology, California State University, Fresno.

Arousal Influence on Mate Choice: In this study, the relationship between arousal and risky mate choice was analyzed. The study also looked for any differences in physiology when viewing arousing images.

Time perspective and Mating Strategies: We investigated the relationship between peoples mate strategy and their time perspectives.

Spring 2021
